**Ron Klinger** (1941- ) is an Australian contract bridge player who has written more than **70** bridge books including his 1990 book, Guide to Better Card Play, which won the "American Bridge Teachers' Association (ABTA) Bridge Book of the Year Award." His book, Right Through the Pack Again, won the 2010 "International Bridge Press Association Book of the Year Award." He was Editor of Australian Bridge for 13 years (1972-1985). For many years he has written, and still currently writes, a weekly bridge column for both the Sydney Morning Herald and The Sun-Herald.

Klinger also originated the Ron Klinger "**Suit Quality Test ('SQT') Score**".<sup>2</sup> The "**SQT Score**" is computed by adding together (1) the number of cards held in the Suit and (2) the number of Honors (including the Ten if you also hold a higher Honor) held in the Suit. Suit contracts set at a level of "**SQT Score**" - 6 are generally relatively safe.

The "**SQT Score**" recognizes the fact that card counts and distributions are more important than HCPs when setting Suit contracts. This view was popularized by Larry Cohen's 1992 ABTA award-winning book, To Bid or Not to Bid: The LAW of Total Tricks. And Cohen's compatriot Marty Bergen, in Bergen's ABTA 1996 award-

---

<sup>1</sup> As noted in an article in the Winter/Spring, 2024 article in The American Bridge Teachers' Association (ABTA) Journal, [https://esther-bridge.com/pdf/ABTA\\_1\\_24.pdf](https://esther-bridge.com/pdf/ABTA_1_24.pdf), Esther Klinktoast-Houstonhousen in fact is a hypothetical, and not a real person! So this article was really, really written by Bruce Thompson.

<sup>2</sup> See Ron Klinger's web posting at:

<https://csbnews.org/en/the-suit-quality-test-by-ron-klinger/>

winning book, Points Schmoints!, also teaches the all-important philosophy underlying the "Law of Total Tricks". The "Law of Total Tricks" says:

**When you are bidding a Suit contract, assuming both you and Partner are bidding rationally, you will *almost always* (about 85% of the time in Esther's estimation) make a Suit contract if your contract is set at, or lower than, the number of Trump cards you hold minus 6!**

In one of her lessons, "(1) Does the 'Law of Total Tricks' ('LOTT') Really Work, and (2) Is the 'LOTT' Magic?", Esther summaries related *empirical bridge research* exploring how well the "Law of Total Tricks" actually functions:
